

Mettre en place sa veille documentaire

Sommaire

- Définitions et objectifs
- Les solutions techniques. Comment choisir ?
 - Les alertes mails
 - Les flux RSS
- Comment créer sa veille ?
 - Pour surveiller, capter quelle information ?
 - Des résultats d'alertes – information bibliographique
 - Récupérer les résultats à une question : alerte recherche,
 - Surveiller l'actualité et le contenu de ses journaux favoris : alerte sommaire,
 - Suivre les citations d'un article précis : alerte sur citation
 - Surveiller l'actualité de sites ou groupes
 - De l'information issue de services IST
 - Des produits de la veille

Démonstrations et exemples

Veille documentaire

- La **veille** est une activité itérative visant à une surveillance active de l'environnement pour en anticiper ses évolutions
(Norme WP X50-053 AFNOR 1998)
- La **veille documentaire** ou informationnelle est l'ensemble des stratégies mises en place **pour rester informé sur un sujet**, en y consacrant le moins de temps possible et en **utilisant des processus automatisés**.
(Définition d'après Jean-Pierre Lardy, URFIST de Lyon)

Recherche individuelle vs veille individuelle

Recherche documentaire

- Définir ses besoins et son sujet de recherche
- Fixer les limites de sa recherche
- Choisir les sources appropriées
- Effectuer efficacement les recherches
- Evaluer les documents collectés
- Réajuster sa stratégie de recherche

= Etape initiale de la veille

Veille documentaire

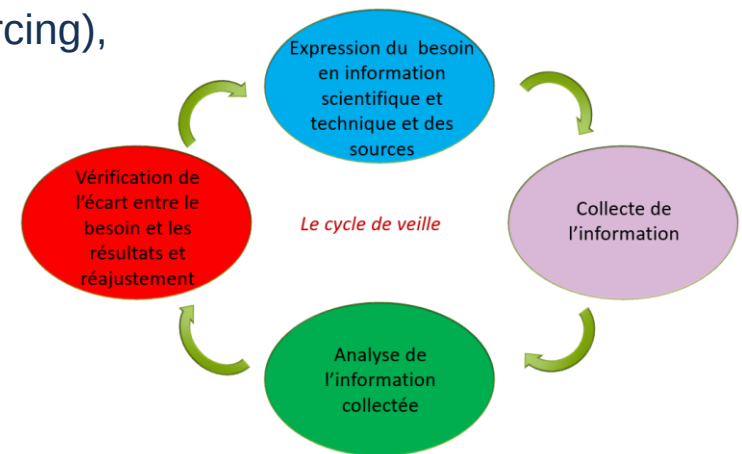

- Suivre l'évolution d'un sujet de recherche
- Surveiller les développements scientifiques et techniques, technologiques, les enjeux sociétaux, l'évolution des acteurs d'un domaine, ...

La veille scientifique du chercheur

- Un travail personnel de recherche documentaire permanent,
 - Faire un état de l'art du sujet de recherche,
 - Surveiller en permanence ses sources,
- Il faut par exemple :
 - Trouver des sources pertinentes (faire du sourcing),
 - Suivre l'actualité sur son sujet de recherche,
 - Suivre les nouveautés (auteur, revue,...),
 - Collecter les informations pertinentes,
 - Anticiper ...
- Les clés pour être efficace :
 - Avoir de la méthode
 - S'organiser
 - Gérer l'information de manière efficace
 - Faire sa veille régulièrement

Méthodes de veille

	P U L L 	P U S H 
	• PULL : l'information est recherchée et extraite par l'utilisateur	• PUSH : l'information est «poussée» vers l'utilisateur
+	• Information plus pertinente • Tri immédiat possible • Pas (pas toujours) d'abonnement requis	• Gain de temps • Automatisation • Régularité de la mise à jour des résultats
-	• Chronophage • Vite lassant • Lourd à réaliser • Temps perdu si pas de nouveautés	• Bruit possible sur les résultats • Infobésité • Nécessité de se créer des comptes si utilisation du mail

Solutions techniques

Alertes mail
Flux RSS

Alertes mail

- Nécessitent l'inscription sur un site via un compte utilisateur
 - Procédures d'enregistrement variables selon les plateformes
- Résultats des alertes dans sa boîte email
 - Abonnement aux nouveautés d'un site web, d'un blog...
 - Actualités d'un site, d'un journal...
 - Nouveaux sommaires d'une revue (titres favoris)
 - Nouveaux résultats d'une requête de recherche sur une base de données, un moteur de recherche...
 - Nouvelles citations d'un article spécifique

Alertes mail

Avantages

- Pas d'outil spécifique
- Paramétrage de la fréquence de réception
- Archivage des informations reçues
- Import direct dans les logiciels bibliographiques (si paramétrage adéquat)

Inconvénients

- Obligation d'enregistrement individuel
- Gestion des alertes (réactivation dans le temps)
- Risque (modéré) de spam et d'encombrement de la messagerie

Les fils ou flux RSS ?

(RSS = Really Simple Syndication)

■ Fichier texte (XML) mis en place par les sites sources pour :

- décrire les nouveautés du site, les actualités...
- les transférer de manière continue sur le poste d'un internaute.

- capter automatiquement de nouvelles informations sans retourner aux sources via un lecteur ou agrégateur
<https://guides-formadoct.u-bretagne.fr/c.php?g=491510&p=3362109>

Fils RSS

Avantages

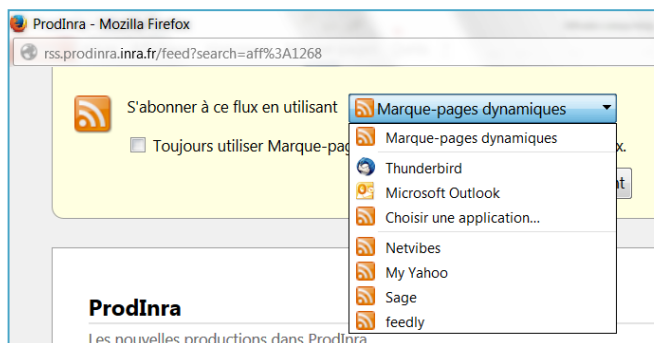

- Pas de spam
- Anonymat : pas d'obligation d'enregistrement
- Désabonnement très simple
- Affichage paramétrable

Inconvénients

- Nécessite l'usage d'un outil spécifique (lecteur, agrégateur)
- Perte du contexte de l'information (mais idem / pour la messagerie)
- Rigueur pour suivre ses fils (sinon risque de perte d'information)

Lecteur de flux Firefox

- Attention : Depuis Décembre 2018, les marques pages dynamiques de Firefox sont supprimés

- Annonce sur le site support Firefox
<https://support.mozilla.org/fr/kb/remplacer-lecteur-de-flux-firefox>
- Outils de remplacement
[Voir sur ce lien](#)

RSS - Exemple 1

Recevoir et gérer les flux RSS via Outlook

- Paramétrer les flux RSS sur Outlook (version installée sur ordinateur). Cliquer sur Flux RSS et suivre la procédure pour ajouter les flux (voir annexe 1)
- **Attention :** pas de paramétrage de flux RSS sur la version Outlook Web mais possibilité de lire les flux paramétrés sur la version «installée sur ordinateur »

The screenshot shows the Outlook application interface. On the left sidebar, under 'Favoris', the 'Flux RSS' option is highlighted with a red box. Below it, 'ALERTES RECHERCHE' is also visible, with a search term 'Search: ALERTPUB-NANTES-WOS 19'. The main pane displays a list of RSS feed items, organized by date. The items are listed in a table-like format with columns for date, subject, and time.

Alimentation sa bibliothèque Zotero par les flux RSS

Exemple 4

Créer un nouveau flux par son URL

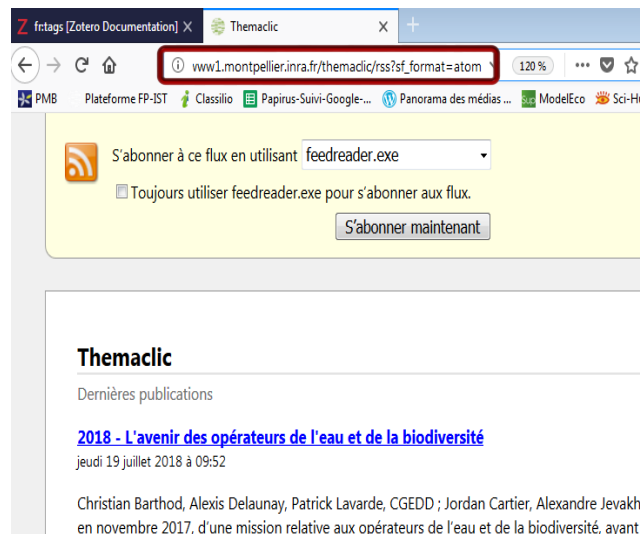

- Repérez les sites que vous voulez surveiller

- Cliquez sur les logos

- Copiez l'adresse du flux – Exemple à partir du site « Thémaclic »

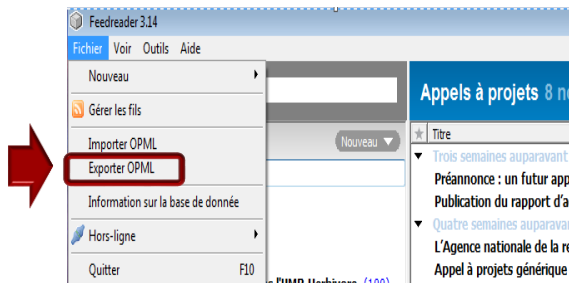

Alimentation sa bibliothèque Zotero par les flux RSS

Ou récupérer les flux à partir d'un fichier OPML (fichier XML)

Dans le cas où vous utilisez déjà un agrégateur de flux RSS
(Feedreader, netvibes, ...)
vous pourrez exporter l'ensemble de vos abonnements

- Exemple à partir de Feedreader

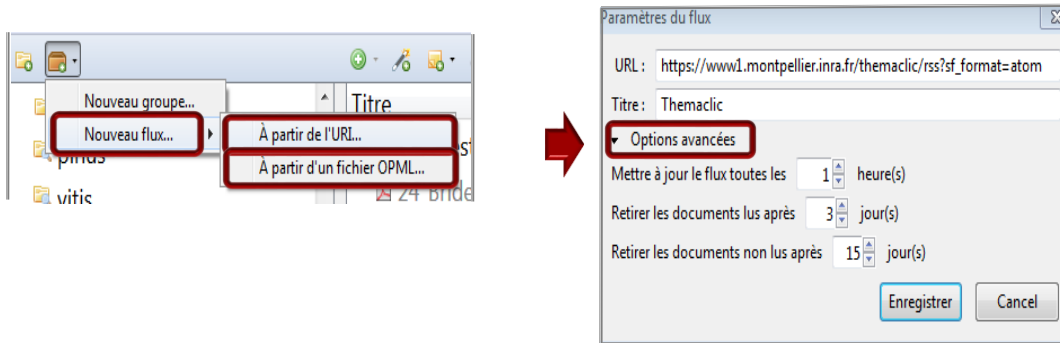

- Exemple à partir de Netvibes :
afficher son compte puis
sauvegarder les données

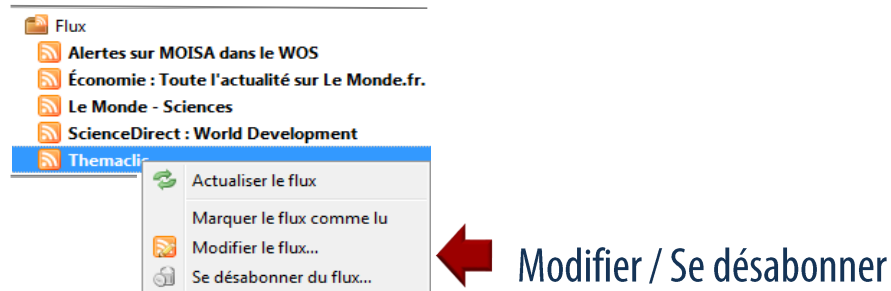

Alimentation sa bibliothèque Zotero par les flux RSS

■ Récupérer des flux dans Zotero

■ Consulter vos flux dans Zotero

Alimentation sa bibliothèque Zotero par les flux RSS

- Créer une référence à partir d'un flux

Cliquer sur le titre d'un flux RSS

Sélectionner Ajouter à « Ma bibliothèque »

The screenshot shows the Zotero application interface. On the left, a list of news articles is displayed under the 'Titre' column. A red arrow points to the article 'Les mauvaises affaires de BPCE avec sa néobanque Fidor'. In the center, the 'Ajouter à' button is highlighted, and a dropdown menu is open, showing 'Ma bibliothèque' as the selected option. A red arrow points to this option. The dropdown menu also lists other categories like 'Agriculture biologique', 'Ecosystem services', 'Food safety', 'Geraldine', 'Google scholar', 'Master EcoDeva', 'MOTS CLES', 'Sustainable development', and 'Urban agriculture'. On the right, a sidebar shows 'Food safety' and 'Standards' categories.

■ Bases brevets

Exemple : Sur Espacenet, http://fr.espacenet.com/advancedSearch?locale=fr_FR

The screenshot shows the Espacenet website interface. At the top, the INPI logo is on the left, and the Espacenet header with 'Recherche sur les brevets' is in the center. On the right, there are links for 'Français', 'Contact', and 'Changer le pays'. Below the header, a navigation bar includes 'A propos d'Espacenet', 'Services en ligne de l'OEB', and a search bar. The search results page is titled 'LISTE DES RESULTATS' and shows 'Approximativement 103 résultats trouvés dans la base de données Worldwide pour : pickering emulsion dans le titre ou l'abrégié'. A red box highlights the 'LISTE DES RESULTATS' title. Below the title, there are options to 'Tout sélectionner', 'Compact', 'Exporter (CSV | XLS)', 'Télécharger 1ère page', and 'Imprimer'. The search results are sorted by 'Date de chargement' in 'Descendant' order. The first result is '1. A Pickering Emulsion Comprising Nano Crystals of Silybin and A Method of Preparation Thereof'. The details for this result are as follows:

Inventeur :	Demandeur :	CPC :	CIB :	Publication :	Date de priorité :

Résultat : affichage du fil dans Outlook

Microsoft Outlook interface showing the RSS feed results for the search 'Journal of Agricultural and Food Chemistry'.

The results list includes:

- [ASAP] Blueberry Malvidin-3-galactoside Suppresses Hepatocellular Carcinoma by Regulating Apoptosis, Proliferation, and Metastasis Pathways - Yuehua Wang, Jie Lin, Jinlong Tian, Xu Si, Xinyao Jiao, Weijia Zhang, Ersheng Gong, Bin Li

The selected article is displayed with the following details:

- Publié le: lun. 07/01/2019 06:00
- Flux: Journal of Agricultural and Food Chemistry: Latest Articles (ACS Publications)

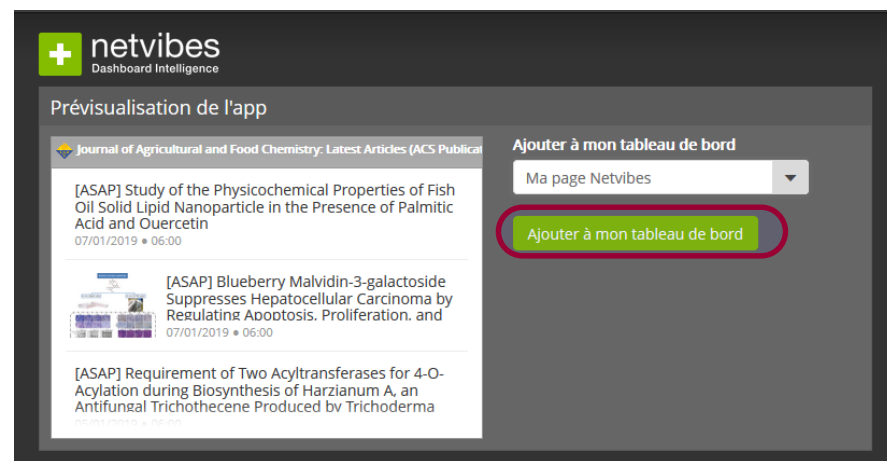

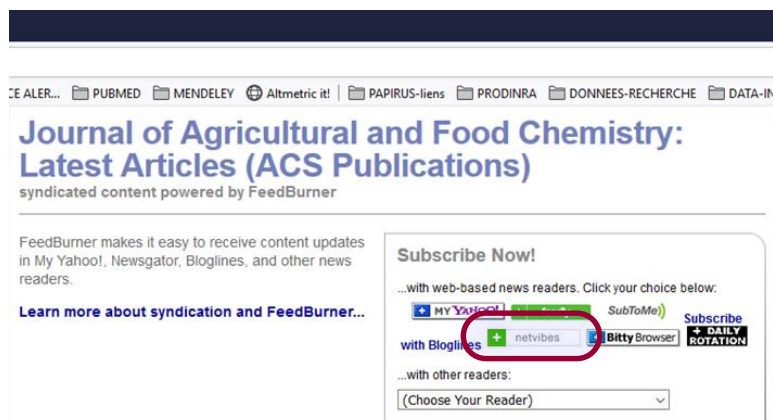

The article abstract and chemical structure are shown, along with a diagram illustrating the experimental setup (In vitro (HepG2 cells) and In vivo (C57BL mice)).

The diagram shows the chemical structure of Blueberry malvidin-3-galactoside and its application in the study. It includes images of cell cultures and mice, and a table of results showing the effects of the compound on cell viability and apoptosis.

The screenshot shows the SpringerLink website. At the top, the SpringerLink logo is on the left. In the center, there is a search bar with the text 'Search' and a magnifying glass icon. To the right of the search bar is a settings gear icon. Further right, the user name 'Dominique L'HOSTIS' is displayed, followed by 'English' and 'Academic edition' with dropdown arrows. A red rectangle highlights the user name 'Dominique L'HOSTIS'. Below the search bar, there is a navigation bar with 'Home' and 'Contact Us' links. The main content area is divided into two columns. The left column is titled 'Browse by discipline' and lists various fields of study with blue arrows pointing to the right: Architecture & Design, Astronomy, Biomedical Sciences, Business & Management, Chemistry, Computer Science, Earth Sciences & Geography, Economics, Education & Language, Energy, Engineering, Environmental Sciences, Food Science & Nutrition, Law, Life Sciences, Materials, and Mathematics. The right column features a large text block: 'Providing researchers with access to millions of scientific documents from journals, books, series, protocols and reference works.' Below this text are two book covers. The first cover is for 'Journal of Intelligent & Robotic Systems' and the second is for 'Das Aushandlungs-Paradigma der Marke' by Inga Ellen Kaskens and Peter G. C. Lux. To the right of the book covers is a purple box with the text 'New books and journals are available every day.' At the bottom of the right column, there is a section titled 'Recent Activity' with a sub-header 'What's being read within your organisation'.

Description

The Journal of Food Science and Technology (JFST) is the official publication of the Association of Food Scientists and Technologists of India (AFSTI). This monthly publishes peer-reviewed research papers and reviews in all branches of science, technology, packaging and engineering of foods and food products. Special emphasis is given to fundamental and applied research findings that have potential for enhancing product quality ... [show all](#)

Abstract
Biodiesel is a renewable alternative to petro-diesel used in compression ignition (CI) engine. Two B100 biodiesel samples were prepared by patented routes from the lipids extracted from marine microalga *Chlorella variabilis* (BA) cultivated in compliance with ASTM D-6751 and European Standard EN-14214 specifications. Standard characteristics of a heavy duty diesel engine fuelled with these B100 fuels (RI and BA) both B100 biodiesels outperformed petro-diesel in terms of particulate matter (PM), penalty on NOx emissions. Among the two biodiesels, merits of BA were established

4- Alertes - Actualités

- A partir de différents types de sites
 - Blogs scientifiques et professionnels,
 - Sites web d'actualité,
 - Sites web spécialisés,
 - Réseaux sociaux professionnels
 - Scientifiques et/ou universitaires
 - Twitter, ResearchGate et autres réseaux sociaux
 - Sites de partage ...

La blogosphère scientifique

Une nouvelle communauté intellectuelle virtuelle...

- « Bloguer // est devenu une activité à la mode, accessible à chacun. Mais c'est aussi et surtout en passe de devenir une nouvelle façon de communiquer dans la communauté scientifique, et donc de recueillir de l'information scientifique. »

Clara Delpas

- « La rédaction de billets sur un blog est devenue, pour les chercheurs :
 - un moyen de diffuser facilement les résultats de la recherche,
 - de donner une information rapide sur les événements scientifiques,
 - de partager directement les connaissances, d'échanger, de débattre...

Exemples

■ Suivre des blogs scientifiques spécialisés ou non :

- <http://blogs.nature.com/>
- <http://blogs.plos.org/>
- <http://biopol.free.fr/index.php/tag/biopolymer/>
- <http://blogs.rsc.org/py/>
- <http://www.cafe-sciences.org/>
- <http://researchblogging.org/>

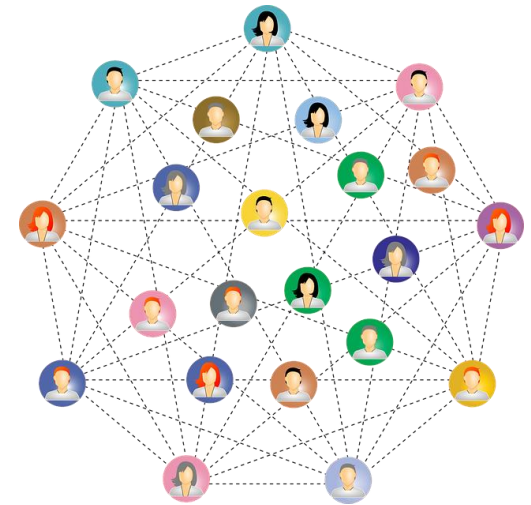

Plateforme dédiée à la collecte des billets se rapportant exclusivement aux articles revus par les pairs issus d'autres blogs scientifiques.

■ Suivre des sites d'actualité :

- Presse : [Les fils RSS du Monde](#)
- Organismes de recherche :
 - Fil info / ANR : <http://www.agence-nationale-recherche.fr/flux-rss/>
 - Actualités du CNRS : <http://www.cnrs.fr/fr/une/actus/alaune.xml>
 - INRA – site national : plusieurs fils proposés

Les réseaux sociaux scientifiques

- Fondés sur les mêmes principes que les réseaux sociaux généralistes type *Facebook*, les réseaux sociaux scientifiques (*Researchgate*, *Academia*, *MyScienceWork*...) sont de plus en plus utilisés par les scientifiques.

- Où en est-on des réseaux sociaux académiques?
<http://urfistinfo.hypotheses.org/2896>

Group activity

Marc Lahaye added documents to this group

- Fruit Quality: New Insights for Biotechnology
- Fruit temperature and ethylene modulate 1-MCP response in 'Bartlett' pears
- Recent Methods and Techniques of External Grading Systems for Agricultural Crops Quality Inspection - Review
- Changes in pH, acids, sugars and other quality parameters during extended vine holding of ripe processing tomatoes
- Influence of Combined Biotic and Abiotic Stress on Nutritional Quality Parameters in Tomato (*Solanum lycopersicum*)
- And 50 more

26th October, 2012

Utilization of correlation network analysis to identify differences in sensory attributes and organoleptic compositions of tomato cultivars grown under salt stress

K Zushi, N Matsuzoe in *Scientia Horticulturae* (2011)

Services IST...

■ Exemple : le service Question / Réponse

The screenshot shows the 'Question/Réponse en IST' website. At the top, a banner reads 'posez votre question... une équipe de documentalistes vous répond' with the 'ist@inra' logo. Below the banner, there are navigation links: 'Posez votre question', 'Toutes les réponses', 'Focus sur...', 'Comment ça marche?', and 'Votre avis'. The main section is titled 'Posez votre question'. It features a text input area with a rich text editor toolbar (bold, italic, underline, list, link, etc.). Below the input area is a 'Domaine' dropdown menu currently set to '- Liste de choix -'. Underneath is a 'Sources consultées' section with another rich text editor. On the right side, there is a 'Rechercher' button and a list of 'Q/R toutes fraîches !' including links for 'Choix d'une licence creative commons', 'Procédure en cas de plagiat', and 'Publier dans Plant Journal'. Below this is a 'Q/R par domaine' section with a list of categories and their counts: Bibliométrie (23), Données de la recherche (15), Droits d'auteur (29), Gestion bibliographique (35), Gestion des connaissances (2), Open access (30), Prodinra (10), Publication scientifique (69), Recherche documentaire (34), Réseaux sociaux (2), Ressources Inra (47), and Technologies en IST (15). At the bottom right, there is a 'Nous suivre' section with the Twitter handle '@istinra_QR' and an 'Abonnez-vous !' button with a red RSS icon, which is highlighted by a red rectangle.

The screenshot shows an email received from 'Question/Réponse en IST' on March 08/01/2019 at 17:18. The email is addressed to Dominique Dominique L'Hostis. The subject is 'Question/Réponse en IST. Bonjour Dominique'. The body of the email contains a banner identical to the one on the website, followed by the heading 'Procédure en cas de plagiat'. The text reads: 'Bonjour, Quelle est la procédure applicable dans un cas de plagiat de document par un collègue ? Est-ce une procédure judiciaire ou une procédure administrative ? Cordialement,'. Below the text is a 'Lire l'article' button. At the bottom, there are social media icons for Facebook and Twitter, and a footer with links for 'Se désabonner', 'Gérer votre abonnement', and 'Ajoutez votre adresse postale ici !'.

Liste de diffusion

C'est un regroupement d'adresses de personnes partageant un même champ d'étude ou centre d'intérêt.

Elles sont alimentées par les membres, pour les membres

Avantages

- La précision des informations reçues : le plus souvent en phase avec le champ disciplinaire concerné.

Inconvénients

- Restreintes, elles ne permettent pas d'élargir la veille au delà du cercle qui forme la liste.

Newsletter ou lettre d'information

Document électronique envoyé à date fixe par un site (une source) qui contient l'intégralité ou une sélection des articles publiés sur cette source depuis la dernière lettre publiée.

Avantages

- un outil intéressant de vue d'ensemble de l'actualité d'un site.

Inconvénients

- Si le site publie beaucoup de ressources entre deux envois, la lettre peut être longue, voire indigeste.
- Une newsletter reprend l'intégralité du contenu d'un site. Si une partie des ressources du site en question ne vous intéresse pas, vous recevrez quand même leur mise à jour.
- Attention à la temporalité de l'envoi des lettres certains événements sont anciens, voire passés

Les collègues

- Les personnes de la vraie vie sont un bon canal d'échange d'informations.

- Conférences, colloques, les « réunions de couloirs » mais aussi les déjeuners et dîners... peuvent être d'importantes sources d'informations.

Pour aller plus loin ...

■ Bibliographie

Conclusion

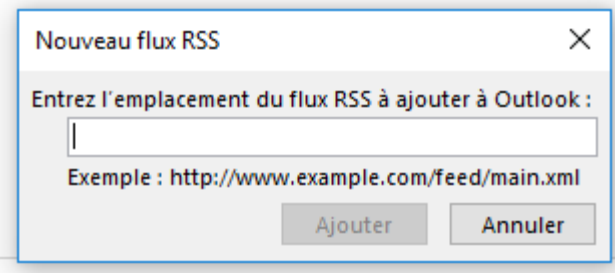

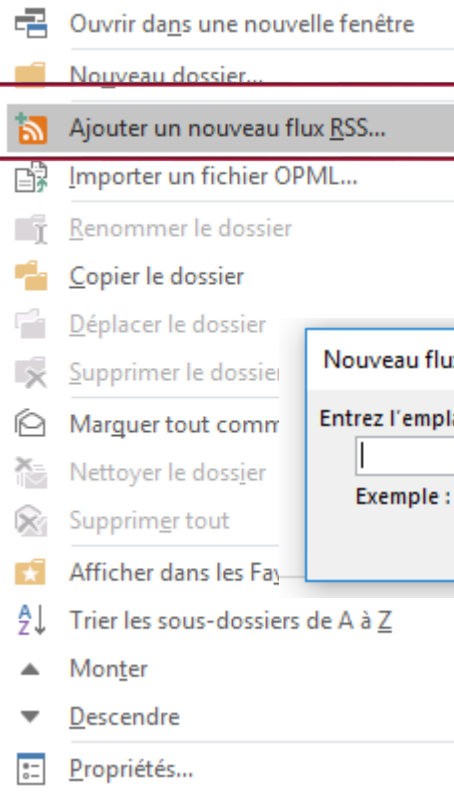

Annexe 1

Comment intégrer un fil RSS dans Outlook ?

- Possible seulement avec la version locale installée sur votre ordinateur

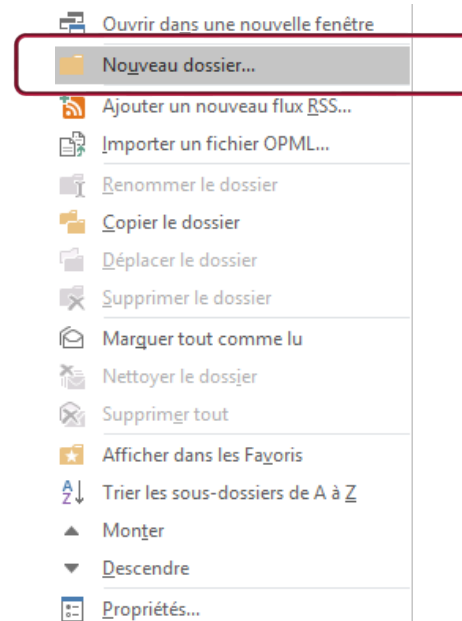

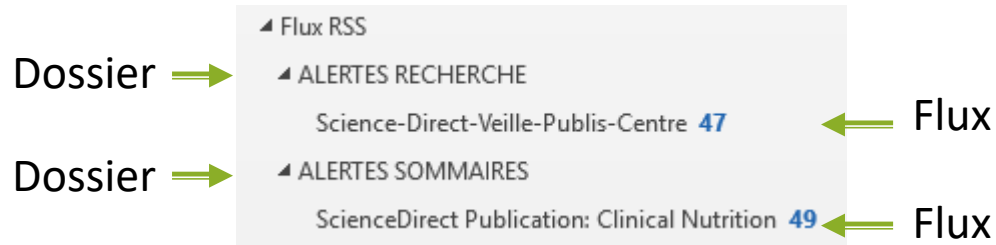

Clic droit de la souris à partir du répertoire Flux RSS

Annexe 1

Comment classer un fil RSS dans Outlook ?

Clic droit de la souris à partir du répertoire pour créer des dossiers de classement des flux

Annexe 2

- Liens vers des outils qui permettent de créer des flux RSS à partir de pages qui n'en proposent pas a priori :
 - www.feed43.com
 - Feedity : <https://feedity.com/>

- Suivi d'une page en particulier (si pas de RSS proposé)
 - Certains plugins informent des changements intervenus sur une page web spécifique entre deux passages de l'outil de « surveillance »
 - Plugin Firefox : Update Scanner
<https://addons.mozilla.org/fr/firefox/addon/update-scanner/?src=search>
 - Plugin Chrome : Page Monitor
(accès depuis le menu Outils > Extensions puis recherche sur « Page Monitor »)
 - Outil Visualping (<http://visualping.io>) : service web gratuit permettant d'être alerté des changements intervenus sur un site spécifique (selon un pas de temps paramétrable)
